

## Hot Tub

### **Relax and Restore: Your Private Hot Tub Experience**

At Three Tree Lodge, you'll find your very own private, secluded hot tub — the perfect place to soak up the spectacular views of the Teign Estuary by day, or enjoy a magical night of stargazing.

Our **Ofuro hot tub** offers a unique experience, inspired by traditional Japanese soaking baths and designed for peaceful, off-grid relaxation. Whether you're soaking solo or sharing a romantic moment, the beautifully crafted wooden tub creates a cosy, luxurious space to slow down and unwind.

This is a **back-to-basics, nature-led experience** where simplicity, warmth and stillness take centre stage.

### **How It Works**

Our hot tub is **wood-fired**, so it works a little differently from an electric one — and that's all part of its natural charm.

Because wood-fired tubs **heat gradually and can't be set to an exact temperature**, we prepare the hot tub **ready for the time you'd actually like to use it**, rather than heating it earlier in the day and risking it being too hot or too cool later on.

### **Choosing Your Soak Time**

Because wood-fired tubs heat gradually and can't be set to an exact temperature, we prepare the hot tub **ready for the time you'd like to use it**.

Please choose one of the following time windows:

- **Early soak:** 5–6pm
- **Evening soak:** 7–8pm

 Heating takes around **3 hours**, so the earlier you let us know, the better we can time it for you. (Heating time and heat retention can vary depending on weather conditions.)

## Temperature & Comfort

A comfortable soaking temperature is usually 35–40°C.

Wood-fired tubs naturally hold and build heat over time, so temperatures may rise gradually.

### **Please keep in mind:**

-  Temperatures can't be "set" like an electric hot tub
-  Always check the temperature before getting in
-  Add only a small amount of wood at a time for gentle top-ups
-  If the water feels too hot, remove the lid for 30–60 minutes to let heat escape
-  Replace the lid when not in use to help retain warmth

 For your safety and comfort, avoid overheating and take regular breaks if the water feels too hot.

This slower, more natural process is all part of the experience — the warmth of the water, the crackle of the fire and the peaceful rhythm of nature.

*Please note:* The hot tub has no jets, filters or LED lights — just quiet, uninterrupted relaxation.

---

## Second Day Hot Tub Refresh (Included)

On your second day, we'll part-empty, refresh and reheat the hot tub, ready for another relaxing soak.

By default, this will be prepared for an evening soak (around 7–8pm).

If you'd prefer an earlier soak (5–6pm), just let us know.

---

## Firewood & Heating

Firewood provided during your stay is intended for gentle temperature top-ups only.

For hygiene and safety reasons, guests are not able to fully heat or reheat the hot tub from cold themselves. We're always happy to take care of this for you as part of our hot tub service.

### **Additional Firewood**

If you'd like extra logs during your stay, a mixed crate of firewood (£12) is available to purchase via the QR code in the lodge, subject to availability.

Each crate includes:

- A selection of mixed-size logs - small ones for the indoor wood burner and larger ones for the hot tub.
- Suitable for the log burner and gentle hot tub top-ups

Please note:

- Logs are for comfort and ambience, not extended reheating
- Full reheating of the hot tub from cold is not permitted

#### **Book Direct & Stay Connected!**

For the best rates and exclusive offers, book directly at [www.threetreelodge.co.uk](http://www.threetreelodge.co.uk).  
Follow us on [Facebook](#) and [Instagram](#) and tag us in your photos — we love seeing your memories!

Once payment is complete, please let us know so we can deliver your logs.

---

## **Longer Stays (More Than Two Nights)**

If you're staying longer than two nights and would like continued use of the hot tub, we offer a daily water refresh and heating service for £25 per additional day, subject to availability.

 Full setup takes around 3 hours, so early notice really helps.

To book:

- Let us know by 10:00am on the day you'd like to use it and an idea of when you want it for
- Wait for confirmation
- Make payment via the QR code in the lodge

 We'll handle the emptying, refilling and heating — all you need to do is relax.

---

## **Hot Tub Etiquette & Safety**

To help keep the hot tub clean, safe and enjoyable for everyone, please follow these simple guidelines:

### **Before You Soak**

- Shower before use
- Remove lotions, oils and heavy makeup
- Place the lid away from the tub (any overspill will drain safely towards the hedge)

### **While Using the Hot Tub**

- No soaps, oils or bubbles
- Keep soak times to 20–30 minutes
- Avoid excessive alcohol
- No glassware — safe outdoor cups are provided beneath the bed with the hot tub towels

### **After Your Soak**

- Replace the lid to help retain heat and keep the water clean

### **General Safety**

- Take care entering and exiting — surfaces may be slippery
