

Wood-Fired Hot Tub Experience Guide

Relax and restore in your very own secluded wood-fired hot tub, with stunning views over the Teign Estuary. Inspired by traditional Japanese Ofuro baths, it's designed for peaceful, off-grid soaking—perfect solo or with a loved one.

This is a nature-led, back-to-basics experience where warmth, stillness and simplicity take centre stage. There are no jets, filters or LED lights—just calm, crackling firewood and the gentle rhythm of nature.

Pricing

- **1 night – £25**
- **2 nights – £40**

For stays of **three nights or longer**, please contact us before your arrival and we'll advise the correct payment based on the length of your stay.

If you'd like to add or continue your experience, please let us know as early as possible so we can prepare everything for you.

Please note: As our hot tub is heated using a real wood fire, its use is always subject to local fire-safety conditions. During periods of exceptionally dry weather, wildfire alerts or other official fire-safety restrictions, we may need to temporarily suspend use of the hot tub at short notice. If this happens, any hot tub experience already paid for will, of course, be **fully refunded**.

Cancellation & Refunds

If you cancel your stay more than 14 days before your scheduled arrival date, any Wood-Fired Hot Tub Experience you have paid for will be refunded. If you cancel within 14 days of arrival, the Wood-Fired Hot Tub Experience is non-refundable. If we need to cancel the experience ourselves due to fire-safety conditions or for another reason outside your control, you will receive a full refund.

Preparing Your Hot Tub

Your Wood-Fired Hot Tub Experience is individually prepared using fresh natural water and traditional wood-fired heating.

Your hot tub will be heated and ready for you from approximately **4:00pm** on the day it has been booked.

Preparation takes several hours, so we prepare everything before your arrival to ensure it's ready for your stay.

Comfortable soaking temperatures are typically **35–40°C**.

Tips for the perfect soak

- Wood-fired hot tubs naturally continue to build heat over time—there isn't an exact set temperature.
 - Always check the water temperature before getting in.
 - If you'd like it a little warmer, add small amounts of wood to the stove.
 - If the water becomes too warm, simply remove the lid for 30–60 minutes to allow it to cool naturally.
 - Replace the lid after use to retain warmth and keep the water clean.
-

Continuing Your Wood-Fired Hot Tub Experience

If you're staying for more than one night, you can continue enjoying your Wood-Fired Hot Tub Experience throughout your stay.

To maintain the highest standards of cleanliness, the hot tub is refreshed every 48 hours using fresh natural water.

Firewood & Heating

- Firewood is provided for gentle temperature top-ups during your experience.
 - Guests cannot heat or reheat the hot tub from cold—we prepare all heating for comfort and safety.
 - Extra mixed log crates (£12) are available via the QR code in the lodge if you'd like additional logs for the log burner or gentle hot tub top-ups.
-

Hot Tub Safety & Etiquette

Before you soak

- Shower before entering the hot tub and remove lotions, oils or heavy makeup.
- Place the lid safely beside the tub while you're using it.

During your soak

- Please do not add soaps, oils or bubble bath.
- Drink alcohol responsibly.
- Use the outdoor cups provided—please do not take glass into the hot tub area.

After your soak

- Replace the lid to retain heat and help keep the water clean.

General Safety
